## Chemical Properties

CAS	
Formula	C <sub>28</sub> H <sub>42</sub> O <sub>2</sub>
MW	410.64
Storage	
Structure	 <p>The image shows the chemical structure of Plastochromanol, a long-chain polyunsaturated alcohol. It features a chromanol ring system (a benzene ring fused to a five-membered ring) with a long side chain containing multiple double bonds and a terminal hydroxyl group. The structure is labeled with 'C H' and 'O H' groups at various points along the chain and on the ring.</p>
