Chemical Properties

CAS	
Formula	C ₂₆ H ₃₈ O ₆
MW	446.58
Storage	
Structure	 <p>The image shows the chemical structure of Ingenol 3-Hexanoate. It features a complex polycyclic core with multiple hydroxyl groups and a long hexanoate ester chain attached to the 3-position. The structure is labeled with 'H-C' and 'O-H' groups, and a 'CH2OH' group is also indicated.</p>
