Chemical Properties

CAS	
Formula	C ₂₆ H ₃₂ N ₂ O ₅
MW	452.55
Storage	
Structure	 <p>The chemical structure of Delapril is shown. It features a central chiral center bonded to a proline ring, a methyl group, a propyl chain, and a propyl chain with a terminal ester group. The propyl chain is also bonded to a phenyl ring. The ester group is labeled with 'C H 3' and 'O C H 3'. The proline ring is labeled with 'O H' and 'O'. The phenyl ring is labeled with 'O H'.</p>
