Chemical Properties

| | |
|-----------|---|
| CAS | |
| Formula | C ₂₀ H ₃₅ N ₇ O ₇ |
| MW | 485.54 |
| Storage | |
| Structure |  <p>The image shows the chemical structure of Gly-Pro-Arg-Pro Acetate. It consists of a central peptide backbone with a proline ring at the N-terminus, followed by a glycine residue, an arginine side chain, another proline ring, and a C-terminal acetate group. The structure is labeled 'Chemical'.</p> |
