## Chemical Properties

CAS	
Formula	C13H8N2O3
MW	240.218
Storage	
Structure	 <p>The chemical structure shows a fused bicyclic system consisting of a benzene ring and a pyridine ring. A pyridone ring is fused to the benzene ring, and a pyridine ring is fused to the pyridone ring. A carboxylic acid group (-COOH) is attached to the pyridone ring.</p>
