Chemical Properties

CAS	
Formula	C ₁₉ H ₁₆ CLN ₃ O ₃
MW	369.8
Storage	
Structure	 <p>The chemical structure shows MMPIP Hydrochloride, which consists of a central pyridine ring substituted with a pyridine ring, a pyrazole ring, and a 4-(4-chlorophenoxy)phenyl group. The pyrazole ring is shown in its protonated form, with a positive charge on the nitrogen atom and a chloride counterion (Cl⁻).</p>
