## Chemical Properties

CAS	
Formula	C15H12CL2N2OS
MW	339.23
Storage	
Structure	 <p>The chemical structure shows SKI-II Hydrochloride, which consists of a 4-chlorophenyl ring connected to a 1,2,4-thiazole ring, which is further connected to a 4-hydroxyphenyl ring. The hydroxyl group is shown as O-H, and a separate H-Cl molecule is indicated, representing the hydrochloride salt.</p>
