## Chemical Properties

CAS	
Formula	C <sub>12</sub> H <sub>11</sub> NO <sub>5</sub>
MW	249.22
Storage	
Structure	 <p>The chemical structure shows a benzene ring with a carboxylic acid group (-COOH) at the 1-position and an amide group (-NH-C(=O)-CH=CH<sub>2</sub>) at the 4-position. The amide group is attached to the ring at the para position relative to the carboxylic acid group.</p>
