## Chemical Properties

CAS	
Formula	C <sub>5</sub> H <sub>9</sub> FN <sub>2</sub> O <sub>3</sub>
MW	164.14
Storage	
Structure	 <p>The chemical structure shows a five-carbon chain. The first carbon is part of a carboxylic acid group (C=O and OH). The second carbon has an amino group (NH<sub>2</sub>) attached with a dashed bond. The third carbon is a methylene group. The fourth carbon has a fluorine atom (F) attached with a dashed bond. The fifth carbon is part of a carboxylic acid group (C=O and OH) and is labeled as 'Chiral NH<sub>2</sub>'.</p>
