Chemical Properties

CAS	
Formula	C ₂₅ H ₄₇ NO ₈
MW	489.65
Storage	
Structure	 <p>The image shows the chemical structure of Carboprost tromethamine. It consists of a central prostanoic acid core with a tromethamine group attached to the carboxylic acid moiety. The structure is shown in a ball-and-stick representation with labels for atoms (C, H, O, N).</p>
