Chemical Properties

CAS	
Formula	C ₂₁ H ₄₀ N ₈ O ₆
MW	500.6
Storage	
Structure	 <p>The chemical structure of Tuftsins is a complex polycyclic molecule. It features a central pyrrolidine ring system. Attached to this system are several side chains, including a long-chain amine, a carboxylic acid group, and a guanidino group. The structure is shown in a 2D representation with various functional groups and stereochemistry indicated.</p>
