

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC34645
Name	Toresten

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

**Email:**

## Chemical Properties

CAS	
Formula	C30H37N3O8S2
MW	631.76
Storage	
Structure	 <p>The chemical structure of Toresten is a complex molecule. It features a central benzimidazole ring system. One of the nitrogen atoms in the benzimidazole is substituted with a 4-(2-(4-chlorophenyl)ethyl)phenyl group. The other nitrogen atom is substituted with a 2-(4-chlorophenyl)ethyl group. Additionally, the benzimidazole ring is substituted with a 2-(4-chlorophenyl)ethyl group at the 2-position. The structure is shown as a 2D chemical drawing with a central benzimidazole ring, a 4-(2-(4-chlorophenyl)ethyl)phenyl group, and a 2-(4-chlorophenyl)ethyl group.</p>
