Chemical Properties

CAS	
Formula	C ₂₅ H ₂₄ F ₆ N ₄
MW	494.49
Storage	
Structure	 <p>The chemical structure shows a central chain of three double bonds. The leftmost double bond is connected to a 1,3,5-triazole ring. The middle double bond is connected to a para-substituted phenyl ring with a trifluoromethyl group (-CF₃) at the top. The rightmost double bond is connected to another para-substituted phenyl ring with a trifluoromethyl group (-CF₃) at the bottom.</p>
