Chemical Properties

CAS	
Formula	C ₃₂ H ₃₈ O ₅ S ₃
MW	598.83
Storage	
Structure	 <p>The chemical structure shows a complex molecule with a central five-membered ring containing two sulfur atoms and one oxygen atom. This ring is connected to a long chain that includes a double bond, a carbonyl group, and a benzimidazole-like ring system. A phenyl group is attached to the end of the chain. The structure is labeled 'Clear' in the top right corner.</p>
