Chemical Properties

CAS	
Formula	C ₁₅ H ₁₀ N ₂ O ₆
MW	314.25
Storage	
Structure	 <p>The chemical structure shows a central benzene ring with a carbonyl group (-C(=O)-) at the 1-position. This carbonyl group is linked via an oxygen atom to the nitrogen of a five-membered cyclic imide ring (succinimide). The benzene ring also has a nitrogen atom at the 3-position, which is part of another five-membered cyclic imide ring (succinimide). The two imide rings are oriented in opposite directions relative to the benzene ring.</p>
