Chemical Properties

CAS	
Formula	C ₁₈ H ₃₁ N ₄ O ₃ S
MW	510.44
Storage	
Structure	 <p>The image shows the chemical structure of Iodoacetyl-LC-Biotin. It consists of a biotin core (a fused bicyclic system with a sulfur atom and a nitrogen atom) attached to a long aliphatic chain. The chain ends with an iodoacetyl group (-CH₂-CH₂-I). The structure is labeled 'Clear'.</p>
