Chemical Properties

CAS	
Formula	C9H19NO6
MW	237.25
Storage	
Structure	 <p>The chemical structure shows a linear polyethylene glycol (PEG) chain with three repeating units. At one end, there is a primary amine group (H-N) that has been converted to an aminoxy group (N-O). At the other end, there is a carboxylic acid group (COOH). The structure is represented as H-N-O-CH2-CH2-O-CH2-CH2-O-CH2-CH2-O-CO-OH.</p>
