Chemical Properties

CAS	
Formula	C4H12N2O3
MW	136.15
Storage	
Structure	 <p>The chemical structure shows a central ethylene glycol chain (two carbons connected by an oxygen atom) with two aminoxy groups (-NHO) attached to the carbons. The structure is represented as H2N-O-CH2-CH2-O-CH2-CH2-O-NH2.</p>
