Chemical Properties

CAS	
Formula	C ₁₁ H ₂₃ NO ₅
MW	249.31
Storage	
Structure	 <p>The chemical structure shows a tert-butyl carbamate group (Boc) attached to the nitrogen of a poly(ethylene glycol) chain. The PEG chain consists of three repeating units of ethylene glycol, ending in a primary alcohol group. The structure is drawn in a skeletal format with explicit hydrogen atoms on the carbonyl and the terminal hydroxyl group.</p>
