Chemical Properties

| | |
|-----------|---|
| CAS | |
| Formula | C ₁₁ H ₂₁ BrO ₄ |
| MW | 297.19 |
| Storage | |
| Structure |  <p>The chemical structure shows a bromo-terminated polyethylene glycol (PEG) chain with a t-butyl ester group at the other end. The PEG chain consists of two repeating units of ethylene glycol, represented as -CH₂-CH₂-O-CH₂-CH₂-O-. The chain is terminated with a bromine atom (Br) on one end and a t-butyl ester group (-COO-C(CH₃)₃) on the other.</p> |
