

Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC35254
Name	Azidoethyl-SS-ethylazide

Tel: +86-21-58447131
Fax: +86-21-61642470

Email:

Chemical Properties

CAS	
Formula	C ₄ H ₈ N ₆ S ₂
MW	204.27
Storage	
Structure	 <p>The chemical structure shows two ethyl chains connected by a disulfide bridge (-S-S-). Each ethyl chain is terminated with an azido group (-N₃), where the terminal nitrogen is positively charged and the two adjacent nitrogens are negatively charged.</p>
