Chemical Properties

CAS	
Formula	C ₁₄ H ₂₁ N ₃ O ₈
MW	359.34
Storage	
Structure	 <p>The image shows the chemical structure of DNP-PEG4-alcohol. It consists of a 2,4-dinitrophenyl group connected via an amide bond to a poly(ethylene glycol) (PEG) chain with four repeating units, which is terminated with a primary alcohol group. The structure is shown in a ball-and-stick representation with partial charges.</p>
