

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC35500
Name	Hydroxy-PEG3-acrylate

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

## Chemical Properties

CAS	
Formula	C9H16O5
MW	204.22
Storage	
Structure	 <p>The chemical structure shows a hydroxyl group (HO) at the end of a three-unit polyethylene glycol (PEG) chain, which is terminated with an acrylate group. The PEG chain consists of three ethylene glycol units linked by oxygen atoms. The acrylate group is attached to the end of the chain via an ester linkage, with a vinyl group (CH2=CH) attached to the carbonyl carbon.</p>
