Chemical Properties

CAS	17008-69-4
Formula	C ₂₄ H ₃₂ O ₇
MW	416.51
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The image shows the chemical structure of Bufarenogin, a complex pentacyclic alkaloid. It features a central pentacyclic core with various substituents, including a 3,4-dichlorophenyl group, a hydroxyl group, and a methyl group. Stereochemistry is indicated with wedges and dashes.</p>
Purity	>98%, Standard References Grade
