## Chemical Properties

CAS	51938-32-0
Formula	C <sub>26</sub> H <sub>28</sub> O <sub>14</sub>
MW	564.49
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The chemical structure of Schaftoside is a complex polyphenolic compound. It features a central chromane core with multiple hydroxyl groups and a piperidine ring system. The structure is highly substituted with hydroxyl groups, including a piperidine ring with two hydroxyl groups and a phenolic ring with a hydroxyl group. The overall structure is a complex polycyclic system with a high degree of oxygenation.</p>
Purity	>98%, Standard References Grade
