Chemical Properties

CAS	119188-47-5
Formula	C ₂₁ H ₂₂ N ₂ O ₄
MW	366.410385608673
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The chemical structure of 10-Hydroxyscandine is a complex polycyclic molecule. It features a central bicyclic core with a nitrogen atom. A hydroxyl group (-OH) is attached to a phenyl ring. A methyl group (-CH₃) is attached to a carbon atom. A methoxy group (-OCH₃) is attached to another carbon atom. A vinyl group (-CH=CH₂) is attached to a carbon atom. The structure is shown in a 2D representation with stereochemistry indicated by wedges and dashes.</p>
Purity	>98%, Standard References Grade
