Chemical Properties

CAS	17650-84-9
Formula	C ₂₇ H ₃₀ O ₁₅
MW	594.52
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The image shows the chemical structure of Kaempferol-3-O-rutinoside. It consists of a kaempferol core (a flavone with hydroxyl groups at positions 5, 7, and 8) linked at the 3-position to a rutinoside moiety (a disaccharide of glucose and galactose). The structure is labeled 'Chem'.</p>
Purity	>98%, Standard References Grade
