## Chemical Properties

CAS	580-72-3
Formula	C <sub>20</sub> H <sub>22</sub> O <sub>6</sub>
MW	358.39
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The chemical structure of Matairesinol is a complex molecule. It features a central five-membered ring containing an oxygen atom and a carbonyl group. This central ring is substituted with two phenyl rings. The left phenyl ring has a methoxy group (-OCH<sub>3</sub>) and a hydroxyl group (-OH). The right phenyl ring has a hydroxyl group (-OH), a chlorine atom (-Cl), and a methoxy group (-OCH<sub>3</sub>).</p>
Purity	>98%, Standard References Grade
