Chemical Properties

| | |
|-----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| CAS | 14941-08-3 |
| Formula | C ₂₈ H ₃₄ O ₁₄ |
| MW | 594.56 |
| Storage | 4°C for 1 year, -20°C for more than 2 years |
| Structure |  <p>The image shows the chemical structure of Poncirin, a complex polyphenolic compound. It features a central flavone core with multiple hydroxyl groups and a piperidine ring system. The structure is highly detailed, showing the positions of hydrogen and oxygen atoms.</p> |
| Purity | >98%, Standard References Grade |
