Chemical Properties

CAS	63238-67-5
Formula	C ₃₁ H ₄₃ NO ₁₀
MW	589.67
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The image shows the chemical structure of Benzoylmesaconine, a complex polycyclic alkaloid. It features a pentacyclic core with multiple hydroxyl groups, methyl groups, and a benzoyl group attached to the nitrogen atom. The structure is labeled with various atoms and groups, including H₃C=O, OH, CH₃, and a benzoyl group (C₆H₅CO-).</p>
Purity	>98%, Standard References Grade
