## Chemical Properties

CAS	52012-29-0
Formula	C <sub>26</sub> H <sub>28</sub> O <sub>14</sub>
MW	564.492
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The chemical structure of Isoschaftoside is a complex polyphenolic compound. It features a central chromone core with multiple hydroxyl groups and a p-coumaroyl side chain. The structure is highly substituted with various hydroxyl groups, some of which are highlighted in red in the image.</p>
Purity	>98%, Standard References Grade
