Chemical Properties

CAS	57-88-5
Formula	C ₂₇ H ₄₆ O
MW	386.65
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The image shows the chemical structure of cholesterol, a steroid with a hydroxyl group at C3, a double bond at C5, and a branched hydrocarbon side chain at C17. The side chain is labeled with 'CH₃' at the end and 'CH=CH₂' at the branching point.</p>
Purity	>98%, Standard References Grade
