## Chemical Properties

CAS	147-85-3
Formula	C <sub>5</sub> H <sub>9</sub> NO <sub>2</sub>
MW	115.13
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The image shows the chemical structure of 2-pyrrolidinecarboxylic acid. It consists of a five-membered pyrrolidine ring with a nitrogen atom (labeled 'HN') at the top. Attached to the 2-position of the ring is a carboxylic acid group (-CH<sub>2</sub>-COOH). The bond between the ring and the methylene group is shown with a dashed wedge, indicating stereochemistry. The oxygen of the carbonyl group is red, and the hydroxyl group is also red.</p>
Purity	>98%, Standard References Grade
