Chemical Properties

CAS	
Formula	
MW	
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The chemical structure of 7-O-Methylchrysin is a flavone derivative. It consists of a chromone core (a benzopyrone ring system) with a methoxy group (-OCH₃) at the 7-position and a hydroxyl group (-OH) at the 5-position. A phenyl ring is attached to the 2-position of the chromone core.</p>
Purity	>98%, Standard References Grade
