## Chemical Properties

CAS	104777-68-6
Formula	C <sub>29</sub> H <sub>36</sub> O <sub>16</sub>
MW	640.2
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The chemical structure of plantamajoside is a complex polyphenolic compound. It features a central core with multiple hydroxyl groups and is linked to various aromatic rings, including a catechol moiety and a p-coumaroyl moiety. The structure is highly branched and contains several ether and ester linkages.</p>
Purity	>98%, Standard References Grade
