Chemical Properties

CAS	174262-13-6
Formula	C ₂₄ H ₂₀ CLN ₃ O
MW	401.89
Storage	
Structure	 <p>The chemical structure shows a central benzamide core. The amide nitrogen is bonded to a benzene ring and a 1H-imidazole ring. The benzamide carbonyl group is attached to a biphenyl system, specifically at the 4-position of the second phenyl ring, which also has a chlorine atom at the 3-position.</p>
Purity	>98%
