## Chemical Properties

CAS	529-53-3
Formula	C <sub>15</sub> H <sub>10</sub> O <sub>6</sub>
MW	286.24
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The chemical structure of Scutellartin is a flavonolignan. It consists of a flavone core (a benzopyrone ring system) with a 4-hydroxyphenyl group attached to the C-6 position. The flavone core has hydroxyl groups at the 5, 7, and 8 positions and a carbonyl group at the 4 position. The 4-hydroxyphenyl group has a hydroxyl group at the para position.</p>
Purity	>98%, Standard References Grade
