Chemical Properties

CAS	56121-42-7
Formula	C ₂₇ H ₂₈ N ₂ O ₄
MW	444.5
Storage	
Structure	 <p>The chemical structure shows a central amide bond. One nitrogen is part of a benzamide group (benzene ring attached to the nitrogen). The other nitrogen is part of a secondary amine chain: -NH-CH₂-CH₂-O-C(=O)-CH₃. The second CH₂ of this chain is also attached to a benzene ring.</p>
Purity	>98%
