## Chemical Properties

CAS	13395-02-3
Formula	C <sub>17</sub> H <sub>11</sub> NO <sub>4</sub>
MW	293.27
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The chemical structure of Aristolactam I is a tricyclic system. It features a benzene ring fused to a five-membered ring containing a nitrogen atom (NH) and a carbonyl group (C=O). This five-membered ring is further fused to a six-membered ring that contains a methoxy group (-OCH<sub>3</sub>) and a five-membered cyclic acetal ring.</p>
Purity	>98%, Standard References Grade
