Chemical Properties

CAS	440662-09-9
Formula	C ₁₉ H ₁₆ N ₂ O ₄
MW	336.34
Storage	4°C for 1 year, -20°C for more than 2 years
Structure	 <p>The chemical structure of CeMMEC1 consists of a benzimidazole ring system. The nitrogen at position 2 is substituted with a methyl group (H₃C). The benzimidazole ring is connected via a carbonyl group to a benzimidazole ring system. The nitrogen of this second benzimidazole ring is substituted with a hydrogen atom (HN).</p>
Purity	>98%
