Chemical Properties

CAS	50-91-9
Formula	C ₉ H ₁₁ FN ₂ O ₅
MW	246.19
Storage	
Structure	 <p>The chemical structure shows a ribose sugar ring connected via its C5' carbon to the N1 position of a 2-fluorouracil ring. The ribose has hydroxyl groups at C2' and C3', and a hydroxymethyl group at C4'. The uracil ring has a carbonyl group at C2, a fluorine atom at C5, and another carbonyl group at C6. The label 'Chiral' is placed above the uracil ring.</p>
