## Chemical Properties

CAS	24219-97-4
Formula	C <sub>18</sub> H <sub>20</sub> N <sub>2</sub>
MW	264.3648
Storage	
Structure	 <p>The chemical structure of Mianserin is a tetracyclic system consisting of a central piperazine ring. One nitrogen atom of the piperazine ring is substituted with a methyl group (H3C). The piperazine ring is further substituted with two benzene rings at the 2 and 6 positions, forming a 1-methyl-2,6-diphenylpiperazine derivative.</p>
