Chemical Properties

CAS	751-97-3
Formula	C ₂₇ H ₃₃ N ₃ O ₈
MW	527.57
Storage	
Structure	 <p>The image shows the chemical structure of Rolitetracycline, a tetracycline antibiotic. It features a tetracycline core with a dimethylamino group at C4, a dimethylamino group at C5, and a piperidine ring attached to C7 via a methylene bridge. The structure is shown in its zwitterionic form with a protonated dimethylamino group at C4 and a deprotonated dimethylamino group at C5.</p>
