Chemical Properties

CAS	1596-84-5
Formula	C ₆ H ₁₂ N ₂ O ₃
MW	160.173
Storage	
Structure	 <p>The chemical structure shows a central nitrogen atom bonded to two methyl groups (CH₃) and a hydrogen atom (H). This nitrogen is also bonded to a carbonyl group (C=O). This carbonyl carbon is part of a chain that includes another carbonyl group (C=O) and a hydroxyl group (OH).</p>
