Chemical Properties

CAS	245765-41-7
Formula	C ₂₁ H ₂₁ N ₃ O ₃
MW	363.417
Storage	
Structure	 <p>The chemical structure shows a central benzene ring substituted at the 1 and 4 positions with two pyridine rings. The pyridine ring on the left has methyl groups at the 2 and 6 positions and a methylamino group at the 3 position. The pyridine ring on the right has a methyl group at the 2 position, a cyclopropyl group at the 3 position, and a carboxylic acid group at the 4 position.</p>
