Chemical Properties

CAS	1222878-02-5
Formula	C ₂₁ H ₁₇ BRFN ₃ O ₄ S
MW	506.35
Storage	
Structure	 <p>The chemical structure shows a central benzimidazole ring system. One nitrogen of the benzimidazole is substituted with a 4-methyl-5-oxo-1H-imidazol-2-ylidene group. The other nitrogen is substituted with a 2-(4-bromophenyl)ethyl group. A sulfonamide group (-SO₂NH-) is attached to the benzimidazole ring, which is further substituted with a 2-(4-bromophenyl)ethyl group.</p>
