Chemical Properties

CAS	
Formula	C ₄₁ H ₃₇ CLN ₆ O
MW	665.23
Storage	
Structure	 <p>The chemical structure of Trityllosartan is shown. It features a central benzimidazole ring system. One nitrogen of the benzimidazole is substituted with a phenyl group. The other nitrogen is substituted with a trityl group (three phenyl rings). The benzimidazole ring is further substituted with a 4-chlorophenyl group and a 4-(4-chlorophenyl)butyl group. The structure is labeled with 'H-C' at the bottom left.</p>
