

Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC37964
Name	Dodine

Tel: +86-21-58447131
Fax: +86-21-61642470

Email:
sales@dcchemicals.com
order@dcchemicals.com

Chemical Properties

CAS	
Formula	C15H33N3O2
MW	287.44
Storage	
Structure	 <p>The chemical structure of Dodine is a long-chain aliphatic amine with a secondary amine group at one end and a primary amine group at the other, separated by a long hydrocarbon chain. The structure is shown as a skeletal formula with explicit hydrogen atoms on the nitrogen atoms.</p>
