Chemical Properties

CAS	
Formula	C7H13NO4
MW	175.18
Storage	
Structure	 <p>The image shows the chemical structure of Ethyl glutamate. It consists of a glutamic acid molecule where the carboxylic acid group is esterified with ethanol. The structure is labeled 'Chiral' above the chiral center. The SMILES string is <chem>CCOC(=O)C[C@@H](N)C(=O)O</chem>.</p>
