

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC37814
Name	Pyroglutamylhistidine

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

## Chemical Properties

CAS	
Formula	C <sub>11</sub> H <sub>14</sub> N <sub>4</sub> O <sub>4</sub>
MW	266.25
Storage	
Structure	 <p>The image shows the chemical structure of Pyroglutamylhistidine. It consists of a histidine ring system connected via a methylene group to a pyroglutamate ring system. The pyroglutamate ring is a five-membered ring with a carbonyl group and a nitrogen atom. The histidine ring is a five-membered ring with two nitrogen atoms and a carboxylic acid group. The structure is labeled with 'CHiral' near the pyroglutamate ring.</p>
